

December 2022

Press Release

At last!

After much delay, IMPA 22 finally took place in December at the QE11 Centre in London.

Having already been delayed by the Pandemic and the unfortunate Royal incident in October, the Organiser's were relieved to finally get a fixed date for the show; however, they hadn't accounted for the unreliable British weather – which snowed before and during the event!

Regardless, many hardy individuals made it through to the show and QMI were pleased to meet with many old friends – and meet a few new ones!
