Press Release

QMI are pleased to announce that Kari-Finn Oy have just been recognised as one of Finland's most prestigious companies.

Of course, as the distributor for Kari-Finn products in the UK, we already know how good their products and the company is!

For over 50 years Kari-Finn have manufactured high quality reliable devices for surface level monitoring and control. Used in many industrial and domestic applications if you have an application that needs accurate control of a liquid there's sure to be a Kari-Finn product that meets your requirements.
